Faculty Compensation Model for Summer Teaching

Tenure/tenure-track faculty may be compensated 3.3% of annual base salary per credit hour if course enrollment meets College requirements. Should course fall below minimum enrollment requirements as it relates to the budget it will be the faculty's prerogative to negotiate a reduced compensation with their academic unit head.

Non tenure track faculty compensation is based on individual's experience with a minimum rate of \$1,000/per credit hour and is negotiated by academic unit head.
